

We are looking for museum collaborators from North Africa and Western Asia!

The State Natural History Museum is the most important natural history museum in Lower Saxony and operates according to several different principles, one of which states that, the human being bears responsibility towards his fellow men and fellow creatures. Therefore, the State Natural History Museum Braunschweig would like to support people who have taken refuge to Lower Saxony, through integration and co-operation.

For this reason, we are looking for refugees from the Arab world, Iran and Afghanistan, who can inspire themselves to work in the museum; those who have their qualifications, skills and experiences with nature.

For a time-limited project, we are looking for:

Biologists

Museum-specialists

Pedagogues

Information/computer scientists

Varied museum activities in the field of natural sciences and a friendly working environment are waiting for you!

If you feel interested, or know someone who meets above-mentioned qualifications, feel free to contact us and tell us your name, nationality, place of residence, residential status and your e-mail address!

State Natural History Museum

Pockelsstraße 10

38106 Braunschweig
